

We manufacture GrowerSELECT[®] Auger Systems and sell them direct to you, the end user...No extra DEALER MARKUPS...and we back them with the best warranty in the business...the GrowerSELECT TWO-YEAR WARRANTY.

Boots and Unloaders

Your feed system depends on properly functioning boots, anchor bearings and driver assemblies. The GrowerSELECT clear feed bin boot, available in a straight and 30° bottom, allows you to always be sure feed is flowing properly. The GrowerSELECT line of auger bearings allows you to affordably replace your OEM equipment with quality components to fit all common sizes of feed pipe. Pairing these items with the GrowerSELECT weldments and driver assembly will complete the backbone of your feed delivery system, ready to offer you years of reliable service and performance.

Feed Line Control Unit

Trust the proven line of GrowerSELECT controls, relays and switches to reliably keep feed available to your animals and provide many years of dependable service.

Extension Components

Reliably feed multiple rooms or rows from a single incoming feed line.

Drive Unit

Drive unit motors and gear heads are manufactured to strict specifications in order to excel in the challenging conditions where they will be used.

Unloader Kits

Whether you need to unload a single feed bin or have a multiple bin tandem setup you can count on Hog Slat to provide you with the parts you need at a price that can't be beat. Our GrowerSELECT line of unloader kits offer affordable solutions to your most complex feed distribution needs.

Grow-Flex Auger

Innovative manufacturing forges a stronger, more durable auger. Superior flexing and breakage strength outperforms standard auger coated with oxidation resistant oil finish after manufacturing.

Drop Adaptors

100% drop-out style adaptor fits existing brands of feed systems. Two piece design allows drop to be installed without disassembling the feed line. Held securely with stainless steel hose clamps and overlapping seams. Positive shut-off with pull ropes.
